Introduction

What is the THINQ Learning Center?

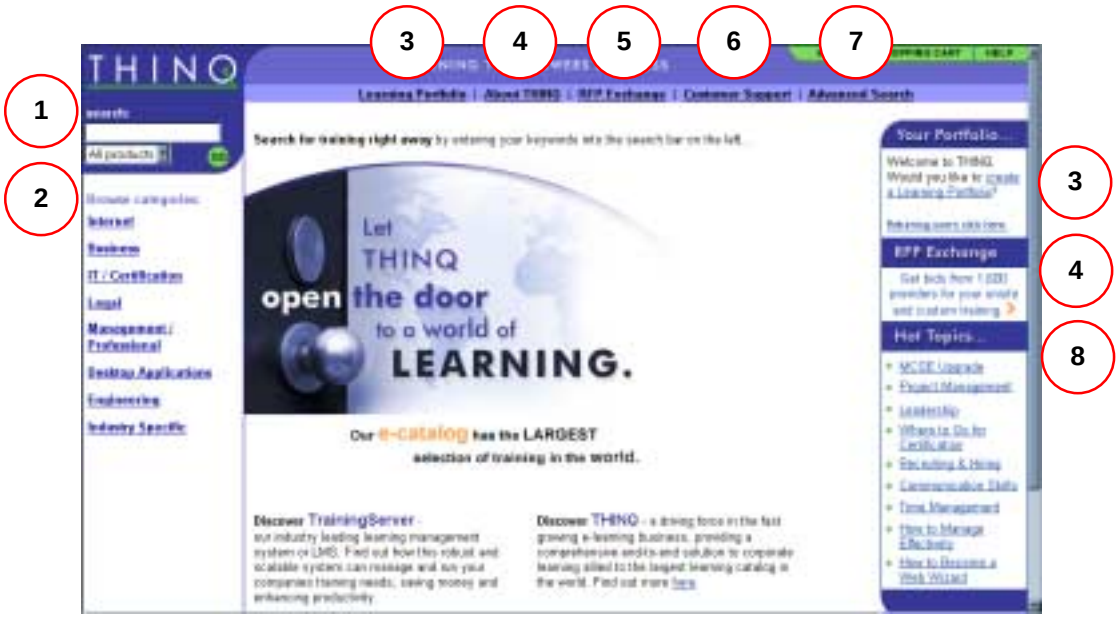
The THINQ Learning Center is a configurable e-commerce catalog of thousands of learning providers, offering hundreds of thousands of learning option resources, giving employees instant access to the training they need. Configured in cooperation with our THINQ Professional Services Group and available via your company's intranet, the Learning Center helps employees find and procure prescribed internal and external learning options.

The Learning Center is a fully-hosted solution that gives Learners access to:

- E-catalog containing hundreds of thousands of courses and products across all modalities, provided by thousands of providers
- Powerful search engine that lets Learners find and compare training courses and products quickly and effectively
- Secure e-commerce/checkout process
- Personal Learning Portfolio for viewing a summary of past learning, managing current enrollments, and storing a learner profile
- RFP Exchange to source onsite and custom training

What are the basics?

When you first log on to the THINQ website (http://www.thinq.com/) and click on the Learning Center E-Catalog link, you will see the main page of the THINQ Learning Center:



This screen is a gateway to all of the Learning Center's functionality. From here, you can:

1. **Search-** This functionality allows you to perform a keyword search in the Learning Center database to see what training is available (e.g., 'Adobe' would generate a list of classes related to Adobe products). You can search on all products, or specific a training media type, such as online learning or books, by selecting a product type from the drop-down list. As well, you can search on a provider name, by entering the provider into the search box and selecting "provider" from the drop-down list.

2. **Browse Categories-** This option allows you to perform a hierarchal menu search (e.g., If you click on **Internet,** the system will present you with a menu of courses with Internet-related training).

3. Access the **Learning Portfolio-** The Learning Portfolio is where you can create a user profile or login with an existing profile. This information is used when purchasing training and for tracking your training selections.

4. Learn more **About THINQ-** This link will present you with more information about the THINQ organization. Users are given a selection of options to access: Management, Timeline, Investors, Quotes & Testimonials, The Market, Contact Us, Directions, in addition to offering specific information on THINQ's product offering.

5. Access the **RFP Exchange-** The RFP Exchange provides an easy way for your company's training administrators or managers to

procure *custom* training. From this link, you can submit proposals for custom training and your RFP is then distributed to a set of qualified providers in the THINQ Learning Center network.

6. Get **Customer Support-** The Customer Support feature provides quick solutions to any problems or questions you might have regarding all aspects of the THINQ Learning Center. You can access subject-oriented frequently asked questions, search the THINQ solutions database, or send your query directly to THINQ's customer support.
7. Perform an **Advanced Classroom Search-** This search allows you to narrow down your classroom course search by location, timeframe, and provider.
8. Check out a list of **Hot Topics-** This is an updated selection of THINQ's more popular classes broken-down by category. This is a great way to keep up with your competitor!

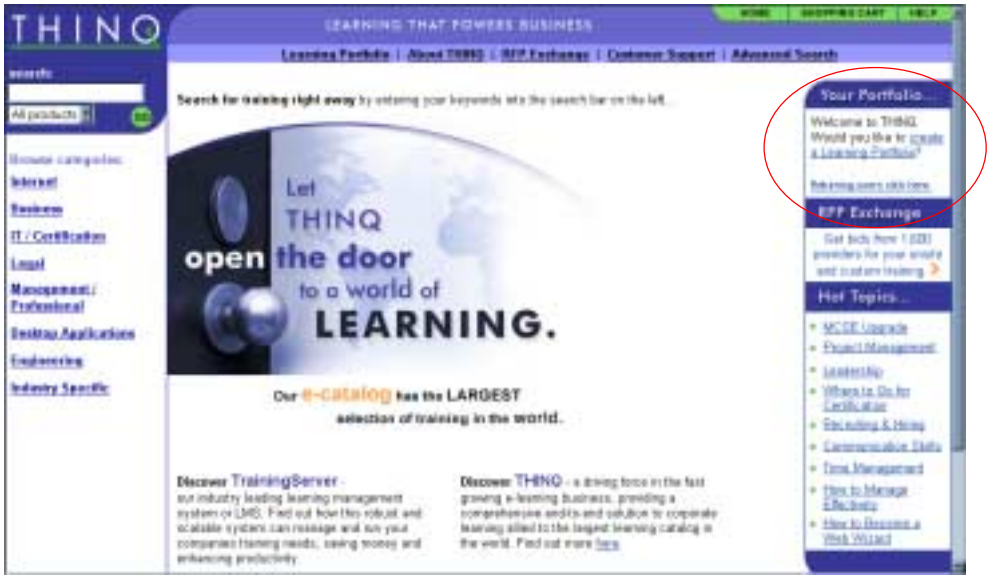
What do I do first?

Create an account

Although you do not need an account to access most of the Learning Center's functionality, it is recommended that you first sign up. This will allow you to make purchases and take advantage of Customer Support.

To create a **new** account:

1. Click **create a Learning portfolio** from the main page.

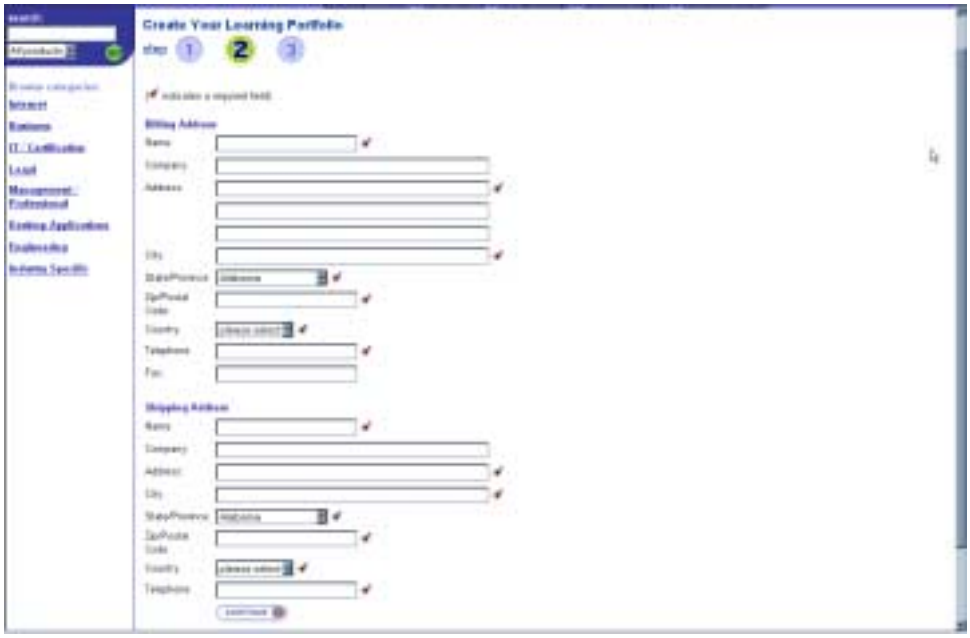


2. This will open the following the screen:

3. Enter your email address and create a password in the spaces provided.

   The ✓ indicates a required field.

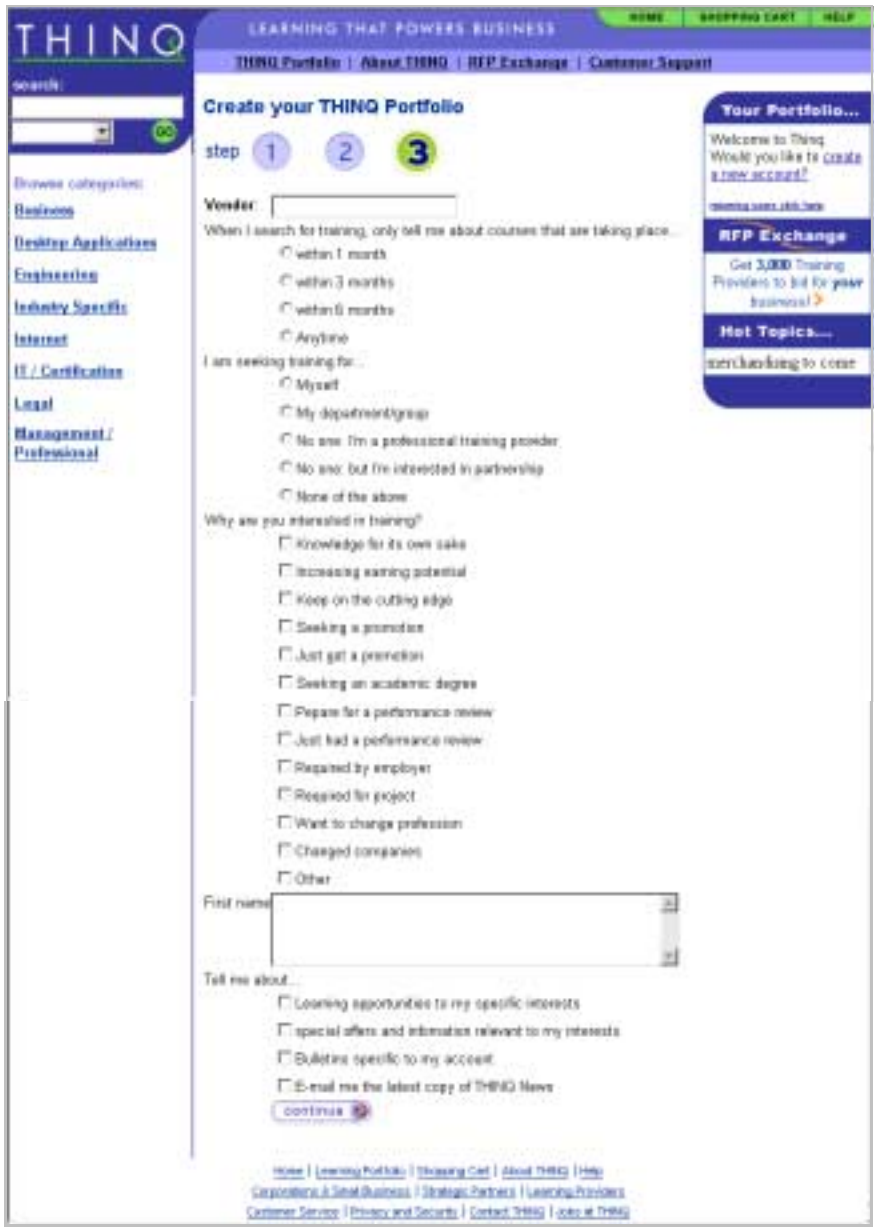
4. Click sign up to sign up immediately or continue to add your billing address and shipping address.



5. Click continue after filling out the required fields.

   - If all of the required fields are not entered (or entered incorrectly), Learning Center will display the following error message "Oops, you missed one or more required fields. Please re-enter your information and try again. Required fields are labeled with a ✓."

6. The **Create your THINQ Portfolio** screen appears. Completing this page is optional, but doing so provides valuable information that helps THINQ find and suggest the right training at the right time.



7. Click the radio buttons and boxes beside the appropriate choices.

8. Click continue. The THINQ Portfolio main page appears.

Immediate Sign Up

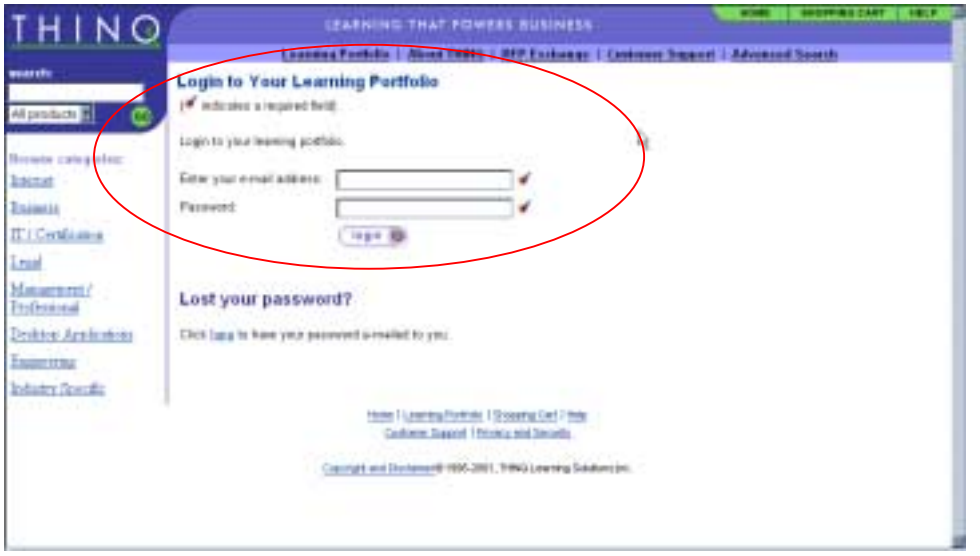
You can skip entering the billing, shipping, and optional customer survey information and proceed directly to the main Portfolio pages by clicking sign up after entering a valid email address and creating a password.

Returning Users Login Page

Users who have already established a Learning Center account, can simply login to begin using Learning Center's functionality:

1. Click **Returning users click here** on the main page.

2. The THINQ Portfolio login screen appears:



3. Enter your e-mail address and password and click login.

   - If you forget your password, Learning Center will automatically email it to you. Click the hyperlink under **Lost Your Password** to launch the following screen:

   - Enter your email address in the space provided and press send my password. The password will be emailed to you.

4. The THINQ main page re-appears and the right sidebar now reflects the active **Portfolio** options:

From here, users can do the following:

1. Access the Portfolio options listed in the right sidebar.
2. Read more about THINQ Portfolio.
3. Logout by clicking .
4. Access any of the THINQ main page functions.
5. Log in as a different user (see note below).

Because Learning Center uses “cookies”, the system can support multiple users from one PC. If someone else has logged into the system or if you wish to change to a different user id, click **If this isn’t you, click here.**

This will open the following screen:

Click logout to end the current user session and to take you to a new user login screen.

How do I search the catalog?

Overview

The search and navigation functionality of Learning Center allows you to quickly find and select courses and products from the THINQ e-catalog.

The Search Engine selects and ranks results based on:

- Closeness of match
- Third-Party Ratings
- User Ratings

When looking for matches, the Search Engine looks at the Course/Product Name and Short Description and the Search Engine follows English language stemming rules and checks the keyword against a synonym table.

6. The **Search** field is available on almost every page, including those containing search results or category information. Use this field to perform 'keyword' searches. The drop-down menu allows you to search on a specific training media type or on a provider name.

7. The **Navigation Bar** links one page to the next, allowing the user to browse through a recordset or show the user where they are in relationship to the page they are on. The category or page number is hyperlinked to allow the user to jump to a specific page.

8. The **Browse categories** is shown on the left side of the Search Results page, allowing users to drill-down to product offerings for that category.

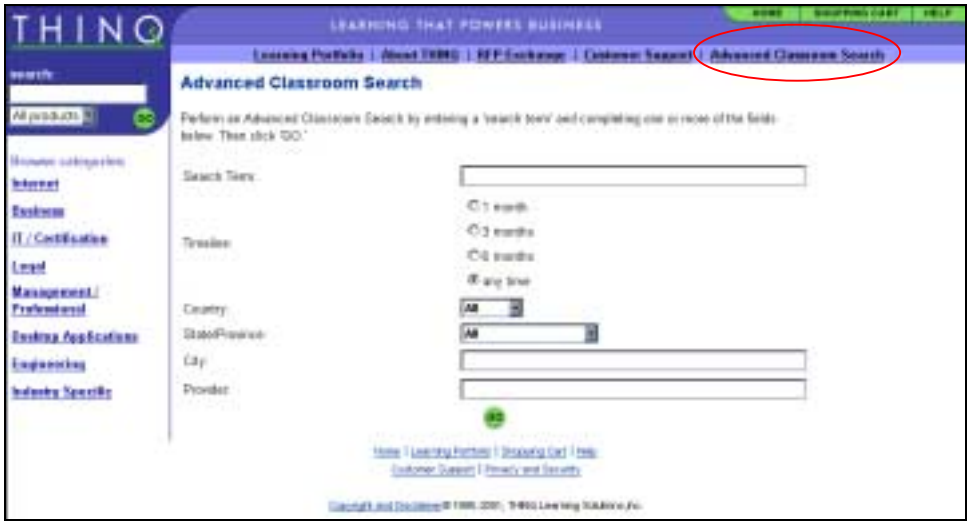
9. The **Category Listings** menu generates a list of sub-categories related to your search query. This list of hyperlinks will help narrow your search.

10. The **Sort results** screen allows you to sort your matching *searches by Price Low to High, Product Name A to Z,* Provider A to Z, and Ratings from High to Low:

11. The navigation bar allows you to jump directly to different search pages. This will help you to easily retrace your steps and facilitates browsing backwards and forwards through the search results list.

12. The **Product Listings** displays the matching products from your search query.

13. At any point, you may click on **Advanced Classroom Search** from the top menu to perform a more specific query. This screen provides fields for querying a Search Term just like the **Search by Keyword** screen, in addition to allowing you to further narrow your search to Timeline (when the course is offered), Country, State, City (where the course is located), and Provider.

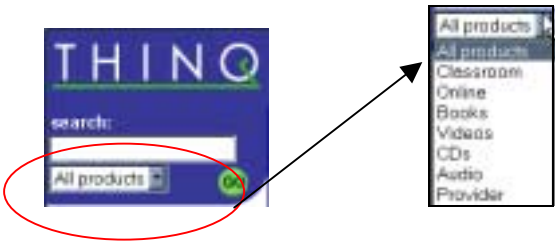


- After entering your search fields, click to return a specified list based on this query.

The above layout, number of results returned, and how items appear may differ on Partner sites, due to custom specifications.

Search Field

The search field contains a text box to enter the search query and a drop-down list to select a high-level media type filter (such as Classroom, Online, or Books) to search within.



1. In the **Search** box, type a keyword to search on. The more keywords you enter, the more specific the search results list will be.
   - To further narrow the search parameters, click the down arrow to view the drop-down list of media types. Select a media type to narrow your search within that category.

   The media type defaults to *All products* if an item is not selected from the drop-down list.

   - Click to proceed with the search. The **Search Results** page is displayed.

Browse Categories

Category browsing allows users to drill-down to product offerings for a particular category. The Browse Categories are located on the left side of the page. As the user drills down, a navigation bar indicates where they are.

1. From the **Browse categories** section, click **Internet**. This will open the following screen:

2. From the **Internet** section, click **Applications & Software**. This will open the following screen:

3. From the **Applications & Software** section, click **Apache Server**. The Apache Server product offerings are listed as shown below:

Category List

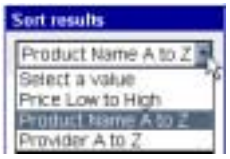
Where applicable, related product offerings are shown in a Category list.

1. From the **Category list**, click a hyperlinked option to view the product listing for the item.

Sort Results

To further refine the search results, you can filter your search results using the **Sort results** pull-down menu. This menu allows to view the results of this search by the following criteria:

- *Price Low to High*
- *Product Name A to Z*
- *Provider A to Z*
- *Ratings from High to Low*

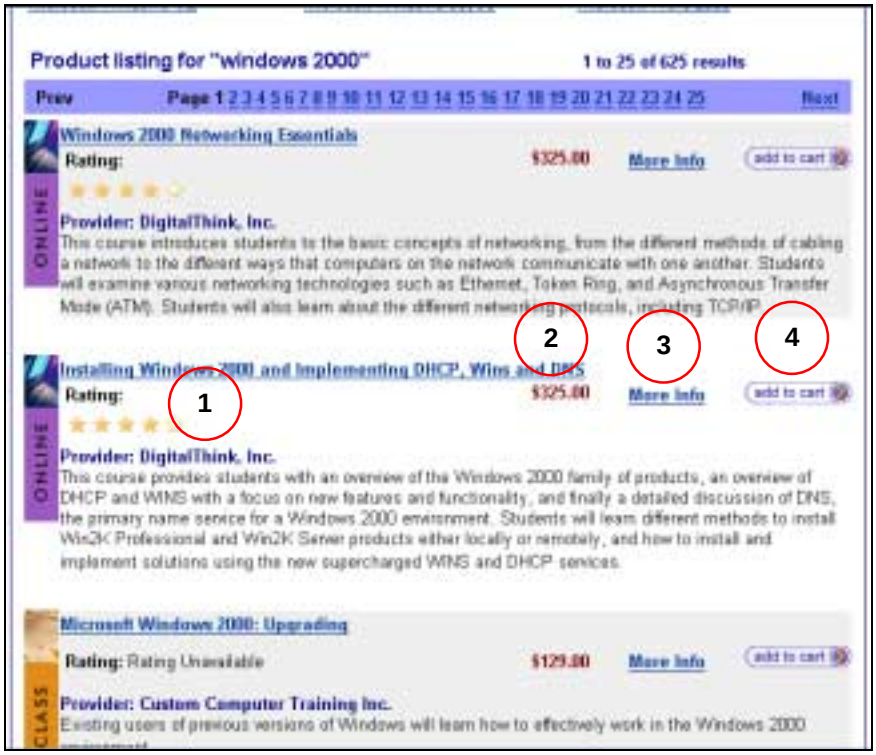


To filter your search results, simply select an option from the pull-down menu.

Product Listing

The Product List page includes information of the product offering, such as a brief description, price and rating. From this page, users can click the links to view additional product information such as: dates and locations (for courses), vendor information, detailed course event information as well as purchase the product offering.

The Products Listing page results from a search or from the Categories list (resulting from the user manually browsing the categories).



1. Ratings are displayed as stars (one to five stars, where five stars is the highest rating). The ratings are derived third-party companies such as Lguide.com and Training Media Review (TMR). In addition, after purchasing a course, you will be sent a link to an online form in which you can supply your own product reviews.
2. The price displays in US dollars

3. The More Info link opens the product page. This page includes information of the product offering, such as the price and a detailed description. From this page, users can e-mail the details to a specified address or add it their shopping cart to purchase.

   The cancellation policy is located at the bottom of each description (as a hyperlink) and is only generated by the system if there is a policy. Selecting this hyperlink will open the following screen:

From this page you can click add to cart to add the selected course to your cart to purchase later or **tell a colleague.**

The **tell a colleague** hyperlink will open the following form:

This form allows you to send the specific product information page to a colleague. Enter the appropriate information and click tell a colleague to have this information emailed to the recipient you entered.

1. The add to cart link places the product into the shopping cart and takes the user to the Checkout Page.

- Learner views Shopping Cart
- Learner enters Shipping Address
- If classroom course, Learner enters Attendee information
- Learner provides Credit Card or Direct Billing information
- E-mail Approval, Notification, and Order Confirmation occurs

Navigating Product Listings

1. Click the appropriate component to obtain more information.
   - Click the hyperlinked page number Page: 1 2 3 or Next page >> to view additional pages containing product offerings derived from the search results. A **Next page** link is provided on all but the last page. A **Previous page** link is provided on all but the first page.

How do I purchase training?

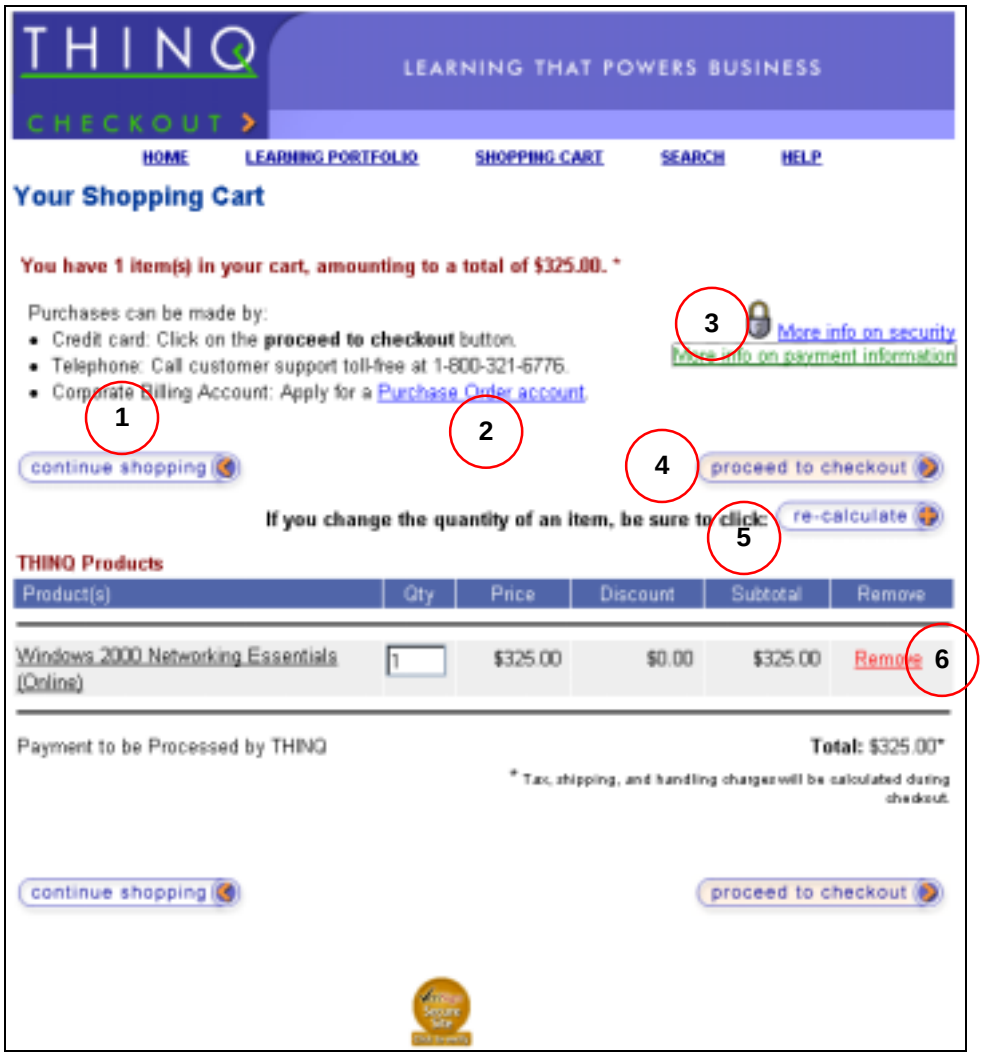
Shopping Cart & Checkout Process

Just as in a physical store, your shopping cart holds items until you are ready to check out.

From the shopping cart you can:

1. Proceed to checkout
2. Continue shopping
3. Delete or save items for later

You can always get back to your cart by clicking SHOPPING CART found at the top of the page.



1. If you would like to continue searching for additional classes or find alternative selections, you can click continue shopping. You can return to your shopping basket at any time, your product details will still be saved and you can proceed to checkout when you are ready.
2. The Purchase Order Account will take you to the following screen:

From here, you can click Download the PO application to apply for a corporate purchase order (PO) account with THINQ which will allow you to buy learning through your PO account.

3. If this is your first THINQ purchase, you should click More info on payment information, to learn about shipping, ordering, and payment information guidelines. The More info on security link provides details on Learning Center's secure check-out system including info on cookies, advertisement, promotions, contact information, etc.

4. When you click proceed to checkout you will then be prompted to confirm your shipping address and - if you are registering for classroom learning - complete the checkout attendees information' page.

5. Use the re-calculate option if you add courses to your cart or make other changes which might affect the price. Clicking this option will present you with an updated total

6. Click Remove next to each class you would like to delete from your shopping cart.

When do you send me e-mail confirmation?

After clicking proceed to checkout and filling out the necessary billing contact and payment information, THINQ will immediately send you an e-mail acknowledging your order request. We will send you a confirmation e-mail within 24-48 hours once the provider confirms availability, or when your company's approval process is complete.

Payment Information

When is my credit card actually charged?

Your credit card will be authorized for the amount of your selected course or product when you click 'checkout'.

Your credit card is not actually charged until the provider confirms availability. You will receive an e-mail confirmation when your credit is settled.

What are the available payment options and what credit cards do you accept?

We currently accept the following credit cards: American Express, Diners Club, Discover Card, MasterCard, and Visa.

You can buy your learning through a corporate purchase order (PO) account if your company has established one with us. If your company is one of our corporate partners, you may pay with a direct billing account, corporate credit cards, or both.

How is sales tax calculated?

Applicable sales taxes will be charged based on the learning providers' places of business and the address of each buyer. Sales taxes will be itemized during the online ordering process.

How do I review or change my billing address, shipping address, or payment options?

Click the Learning Portfolio link then click on 'edit profile' If your company has established a corporate purchase order (PO) account with us, you can buy your learning through your PO account.

Order Information

Can I place my order over the telephone?

Yes. Our customer support representatives will be delighted to help you through every stage of the ordering process. You can call them toll-free at: 1-800-321-6776 between 8:00a.m. and 7:00p.m. EST.

Will I receive confirmation after ordering?

Yes. THINQ will contact you by e-mail acknowledging and then confirming your order, THINQ will also send you a course reminder one week prior to the event start date.

What other methods of ordering are available?

Online ordering is extremely secure. If you wish, you may also submit an order via phone, fax or even regular mail.

Our mailing address is:

THINQ Learning Solutions Inc.
296 Concord Road, Suite 180
Billerica, MA 01820
Toll-free: 1-800-321-7500
Fax: 800-321-7550
E-mail: customersupport@thinq.com

Customer Support hours are between 8:00a.m. and 7:00p.m. EST; closed Saturday and Sunday.

What credit cards do you accept?

We currently accept American Express, Diners Club, Discover Card, MasterCard, and Visa. When you place an order with THINQ, you will receive an e-mail when your credit card payment is authorized for the amount of the course or product.

Remember, your credit card is not actually billed until the provider confirms availability.

Corporate Purchase Order Accounts

Your company may establish a corporate purchase order (PO) account with THINQ. Customers using a corporate PO account will be invoiced upon receipt of the order. Terms are net 10 days. For information about establishing a corporate PO account, please e-mail customersupport@THINQ.com or toll-free at 1-800-321-6776.

Corporate Partners

Some Corporate Partners of THINQ use the direct billing method. This involves establishing a direct billing account, corporate credit cards, or both. These customers will access THINQ through their company's intranet. For more information about our learning solutions for corporations, please e-mail sales@THINQ.com or toll-free at 1-866-677-2546.

Safe Purchase Process

We are very aware of Internet users' concerns about privacy and security. THINQ utilizes Secure Socket Layer (SSL) technology to safeguard your credit card information. SSL is the industry standard for transferring sensitive information over the Internet.

For credit card processing, we also use CyberSource, a 150-point fraud screen that uses artificial intelligence to help ensure that only authorized purchases are made on your credit card.

Order Changes or Issues

If you need to change your order in any way please contact us by e-mail at customersupport@THINQ.com or toll-free at 1-800-321-6776. The terms of the learning provider's return policy will apply and you will be responsible for any additional shipping and handling charges.

Course Changes

If you need to make any course changes: cancel a course, reschedule a course, or cancel an attendee, you can do so by accessing your Learning Portfolio and clicking on 'learning summary.' The terms of the learning provider's cancellation policy will apply.

Shipping Information

Can I ship an item to an address other than my own?

Yes. On the checkout screen simply enter the name and address you would like the products shipped to. The order will be billed to your billing address. Shipping charges will be calculated against the new shipping address.

Rates and Shipping

Each learning provider sets its own shipping rates, carriers, terms, and conditions for its products. Shipping details will be specified during the online ordering process. Applicable sales taxes will be charged based on the learning providers' places of business and the address of each buyer. Sales taxes will also be itemized during the online ordering process.

International Orders

All orders are shipped from the United States or Canada, as per the established policies of the learning providers. Shipments to other countries may involve the sort of delays typically associated with international shipping.

What if there is an error in the price of a product I have just purchased?

In the event of an error we will notify you in advance and you will be given the option of reconfirming or canceling your order. While we make every effort to ensure the accuracy of all information, we reserve the right to make corrections if a mistake does occur.

How do I view previous orders?

Click on the Learning Portfolio link. Then check the status under 'order summary' to display a history of all orders you have placed with THINQ. Click on an individual order number to view additional details and to print a receipt.

How do I manage my account?

The THINQ Portfolio screen allows you to create an account, modify your personal information, and to view your personal information and learning/purchase history.

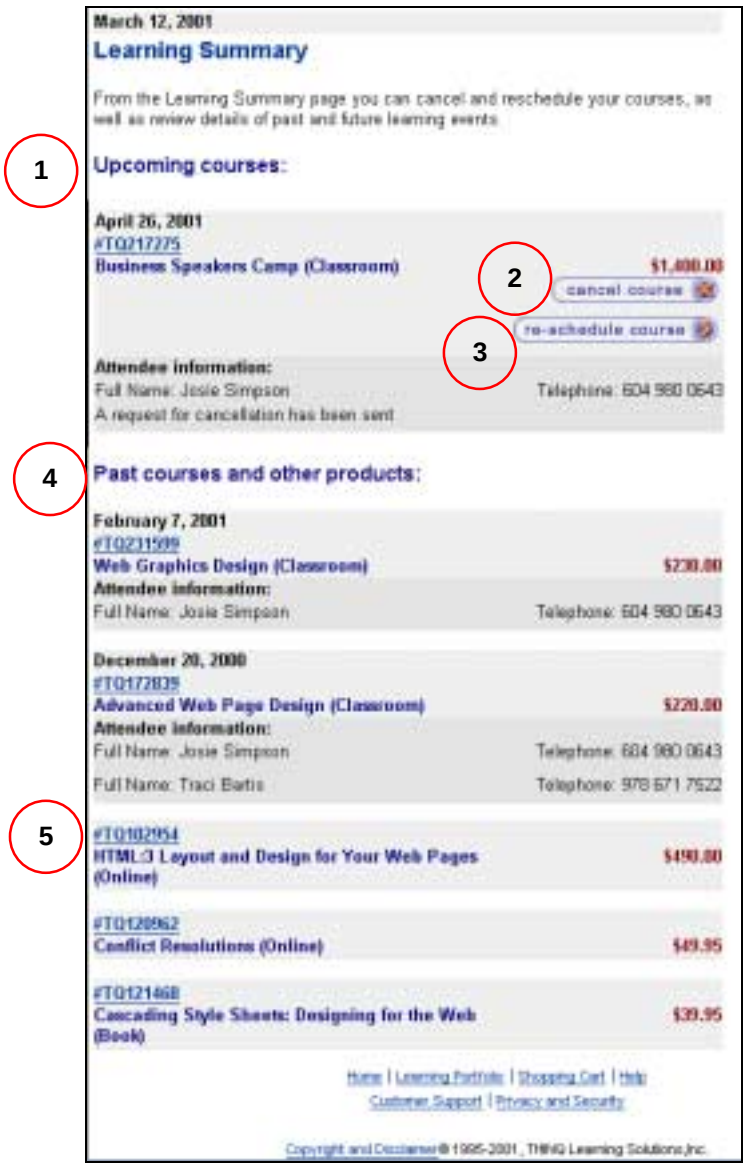
Click the headers or the left sidebar options to access the different Portfolio features.

Learning Summary

The **Learning Summary** option allows users to do the following:

- Review upcoming training
- Review past training
- Cancel or reschedule courses
- Cancel or substitute attendees

When users click the **Learning Summary** option, the following screen appears:



1. Upcoming Courses
2. To cancel a course, click cancel course. The following screen will appear:

Click cancel course again to send a request to Customer Service who will then process it manually.

3. To reschedule a course, click re-schedule course. A list of alternate dates will display for your selected course:

Customer Service receives the request for course rescheduling and processes it manually.

4. Past Courses and Other Products
5. Other list

If you have no current orders, the following message will appear: "**You have no order history.**"

Order Summary

The **Order Summary** option allows users to do the following:

- View previous orders.
- Check the status of current orders.
- Print receipts.

Order Summary Screen

When users click the **Order Summary** option, the following summary screen appears:

Click here to view details.

Edit Profile

The **Edit Profile** hyperlink returns you to the New User's Account Setup steps.

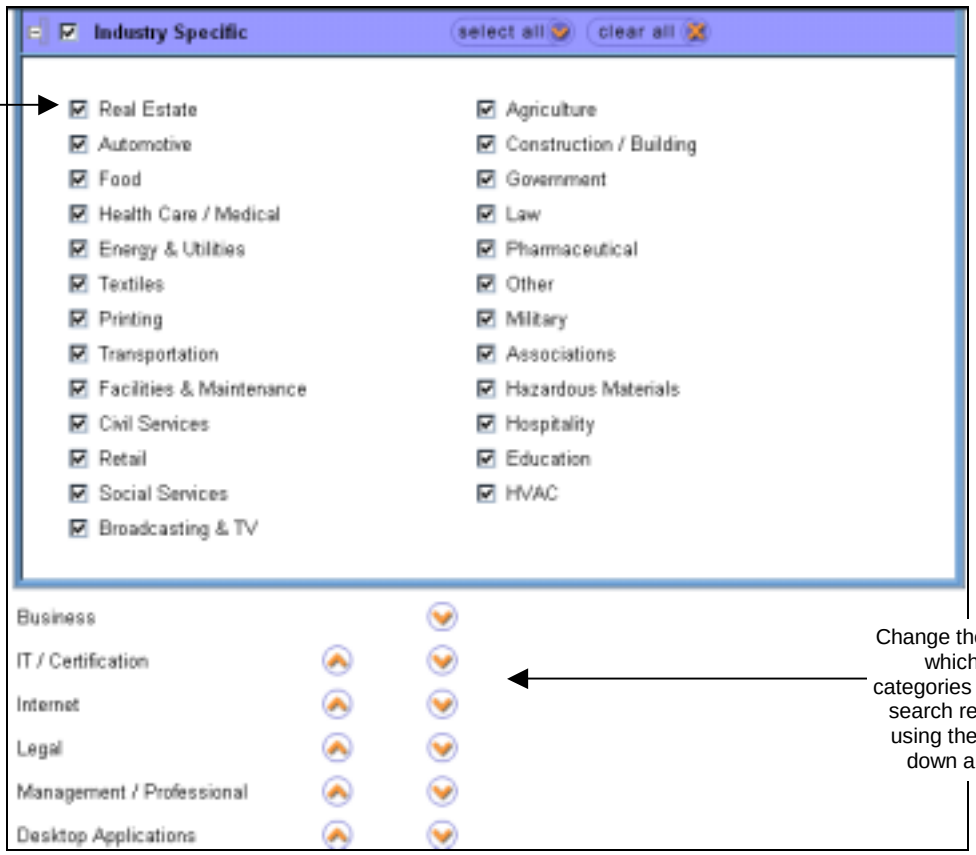
Personalize Your E-catalog

The **Personalize Content** option allows users to include or exclude different categories from searches for training products. This minimizes the results that appear and helps people find the training they need more quickly.

This option appears only to users accessing the main THINQ Public Learning Center.

The +/- radio buttons will expand/hide the

Click beside a category to have products from that category included in search results.



Change the order in which the categories appear in search results by using the up and down arrows.

This screen allows users to do the following:

- Select the categories they want returned in the search results for training products.
- Select the category order in which search results appear.

How do I find custom training?

Overview

The RFP Exchange is a web-based service that provides an easy way for your company's training administrators or managers to procure **custom training**. By bringing together a network of thousands of training providers, RFP Exchange gives you one place to find the right training provider for almost any custom training need. Submit a request for proposal (RFP) into RFP Exchange using our standard forms, which will help you define your requirements. Once submitted, your RFP is distributed to a set of qualified providers in the network. Your contact information is kept confidential.

Training providers who can meet your requirements will respond with an online proposal typically within 24-48 hours. You can then log into your RFP Exchange account to evaluate proposals side-by-side to compare providers' backgrounds, instructor qualifications, customer references, course content and price.

When you find a proposal that meets your needs, you can schedule training or request more information. Our team of RFP Advisors is always available to help you fill out your RFP, evaluate the proposals you receive, find you additional proposals if needed, let you talk to providers of interest, and handling the scheduling and billing for your training when you find the right learning solution.

You can use RFP Exchange to find providers for:

- Onsite classroom training.
- Multi-user licenses of online and computer-based courses.
- Volume pricing on off-the-shelf training products in all modalities
- Consulting services such as content conversion for web-based training, skills assessments or freelance trainers.
- Training tools such as authoring tools or testing software.
- Conference facilities for offsite training.

THINQ RFP Exchange allows you to:

- Reach qualified training providers in one easy step
- Save countless hours searching for the right solution provider
- Get quick turnaround – proposals typically arrive within 24-48 hours
- Compare responses in a standardized format to make selection fast and easy
- Obtain live assistance from our dedicated team of RFP Advisors

THINQ will customize and co-brand your RFP Exchange to integrate seamlessly with your corporate intranet, provide RFP Advisors to help your staff define their needs and use the service, and give you unlimited access to the RFP Exchange network of learning providers.

Click on the link for **RFP Exchange** from the main page of the Learning Center (or from the main page of THINQ). This will open the following screen:

1. Click **Submit a Training Request** to define your specific training requirements
2. The LEARN MORE option will provide you with a high-level overview of the RFP Exchange complete with an online tour, a FAQ, and an updated list of latest news. The news link can be also be accessed directly from the list of links on the side menu.
3. The buyer login will take you to the registration/login screen. This page follows the same logic as the Learning Center login..
4. Click **Get Training Leads** to receive proposals from providers who can customize training solutions for your learners.
5. The provider login will take you to the registration/login screen. This page follows the same logic as the Learning Center login.
6. In addition, to the LEARN MORE option, the RFP Exchange also provides an HTML Buyer and Provider tour which offers a good way to get acclimated to the system structure.
7. The **Special Promotions** link will regularly highlight new and exclusive training offers.

What do I do first (for Buyers)?

Create an Account

1. Click Buyer login from the main RFP menu. The following screen will appear:

2. To create a new account, enter the requested information in the required fields.

The ✔ indicates a required field.

3. Click Sign Up to sign up.
4. A successful login will generate the following screen:

5. Click **Go to Buyer Menu** to begin.
6. After logging in to the RFP Exchange as a buyer, you will see the following screen:

If you are an existing member of the RFP exchange, enter your email address and password in the spaces provided and click Login.

If you lost or forgot your password, click **lost your password?** and it will be emailed to you.

Submit a Training Request

1. Click **Submit a Training Request**. This will open the following screen:

2. Select which category your training need belongs (Onsite Courses, Online Courses, CD-ROM Courses, Training Tools, Consulting Services, or Conference Facilities) and click Next >.

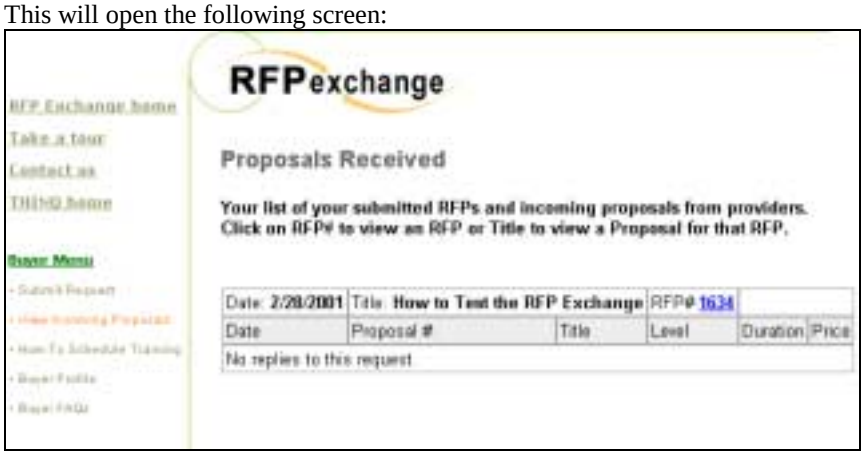
3. Each selection will take you to a different series of steps requesting information specific to your request and category (e.g., questions for Onsite Training include Course Title, Level of training, number of people attending, and How will people will access the Internet?).

4. Once you have filled in the required fields successfully, your proposal will be assigned an identification number and the following screen will appear:

View Incoming Proposals

After successfully submitting a proposal to the RFP Exchange, you can monitor and track incoming proposals using the **View Incoming Proposals** link.

This will open the following screen:



From here, you can view all open proposals, replies to that proposal, along with the price, level, title, and date.

How to Schedule Training

Once you have found a training proposal that matches your requirements, you can then use the RFP Exchange to schedule training. At the bottom of each proposal are a series of action buttons for you to schedule training or get more information to help in your decision. You can request changes to given proposals, ask for customer references from the provider or ask to have the training provider contact you.

For Onsite training courses, if you are ready to schedule training based on a particular proposal, select the "Schedule Training" button on the bottom of the proposal form. Enter the dates you prefer training. We will contact you with available dates, and send you a registration confirmation agreement for you to sign and return to us. THINQ will handle all billing for the course with the training provider.

For Online or CD-Rom training courses, if you are ready to buy a course based on a particular proposal, select the "Purchase Training" button on the bottom of the proposal form. We will contact you, and send you a registration confirmation agreement for you to sign and return to us. THINQ will handle all billing for the course with the training provider.

For Software products, Consulting services and Conference facilities, you can choose to request more information from the training provider by selecting the "Send Me More Information" button on the bottom of the particular proposal.

Change your Profile

Just like the Learning Center, the RFP Exchange allows you to modify your account information (e.g., billing address, contact information, etc.) at any time.

1. Click the **Buyer Profile** link. This will take you back to the initial account registration screen (refer to the **Create an Account** section for further information).

2. Click to save your changes.

What do I do first (for Providers)?

Providers can use the RFP Exchange to monitor and purchase “live” leads. This does not require prior registration, but it is recommended.

Provider Registration

This is the New Provider registration process. This information is used to establish a private account for you.

Information about the training you offer is used to email notify you when new RFPs come in that match the training services you offer.

1. Click from the main RFP menu. The following screen will appear:

THINQ
RFPexchange
LOGIN
Existing Providers
New Providers

2. To create a new account, enter the requested information in the required fields.

   The ✓ indicates a required field.

3. Click Sign Up to sign up.
4. A successful login will generate the following screen:

5. Click **Provider Menu** to see your full list of options:

If you are an existing member of the RFP exchange, enter your email address and password in the spaces provided and click Login.

If you lost or forgot your password, click **lost your password?** and it will be emailed to you.

View Leads Board

The **Leads Board** contains **Proposals Needed (**New opportunities from corporate customers that need proposals) and **All Proposals Received** (Opportunities from corporate customers that have received the requested number of proposals. You can

still respond to these opportunities, but your proposal will be held in a queue by THINQ until the customer requests additional proposals.)**.**

As part of the introduction to RFP Exchange, you can respond to any opportunity on the Leads Board for FREE. There is no current charge for responding to a lead. You only pay a commission fee to THINQ for each business opportunity you win through RFP Exchange.

This page is structured similar to the **Browse Categories** feature of the Learning Center search page. The leads are divided by category.

You can choose to:

1. View all RFPs across all categories
2. View All RFPs sorted by Location
3. View New RFPs (RFPs submitted within a specified time frame)
4. In addition, you can click **All** within in a selected category to view all possible leads there or you can click a subcategory (e.g., Database Administration) to see a more specified selection of leads.

For example:

Each RFP that is displayed gives you the option to tell a colleague or submit proposal.

1. The **Tell a Colleague** option is a great way to show a co-worker a proposal of interest to you. The form that appears when you select this option allows you to include a personal note along with the link and RFP information:

2. The

button will take you to the main proposal form. From this form you are asked to describe a proposed course outline for this RFP or the general type of services your company offers. You can also click on the 'Attach Outline' button below to attach a formatted course outline file from your local drive to send with this proposal (Be sure to use a popular format such as .DOC, .RTF or .PDF to make sure customers will be able to view it.). You will also be asked to submit a proposed pricing schemata for this RFP. Once finished, click

and your proposal will be securely forwarded to the requester for their review.

View Proposals Submitted

After submitting a proposal, you can click **Proposals Submitted** to track and monitor them. If you have not yet submitted any proposals, the following screen will appear:

Change Your Profile

Just like the Learning Center, the RFP Exchange allows you to modify your account information (e.g., billing address, contact information, etc.) at any time.

1. Click the **Provider Profile** link. This will take you back to the initial account registration screen (refer to the **Create an Account** section for further information).
2. Click Save to save your changes.

Provider FAQs

As an additional means of support, THINQ has collected a page of frequently asked provider questions. Use this link as your first means of attempting to answer your question before contacting THINQ's support staff.

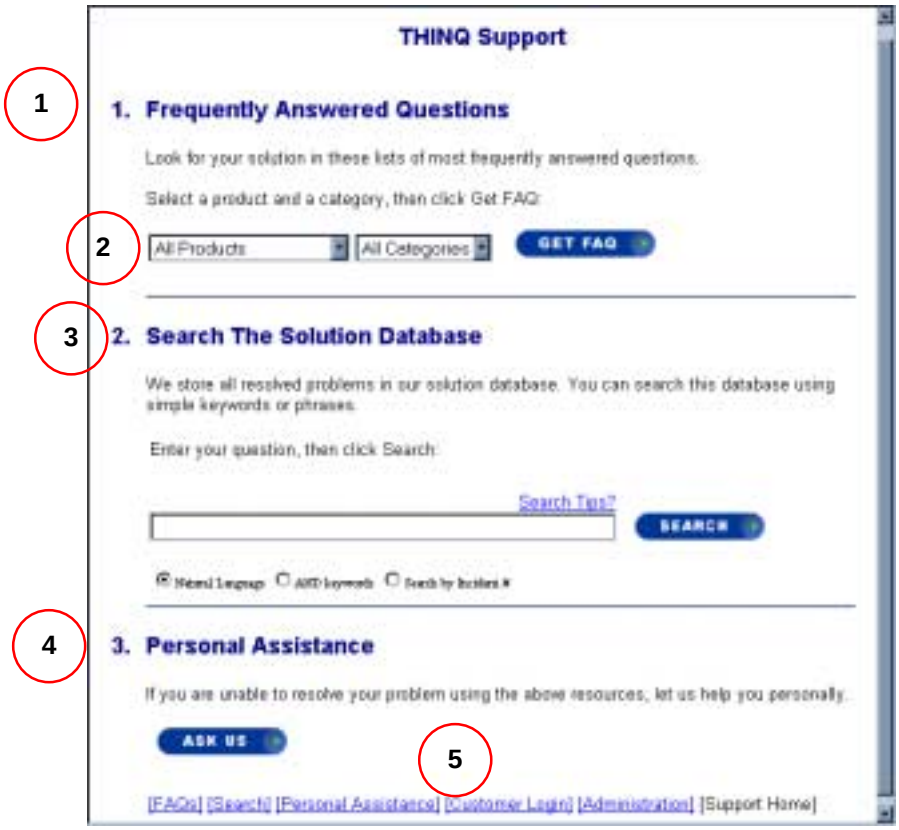
Where do I go for help?

Customer Support

The Customer Support feature of the Learning Center provides a quick way to find answers to your questions.

To access this feature, click the Customer Support from the main page of the Learning Center.

The following screen will appear:

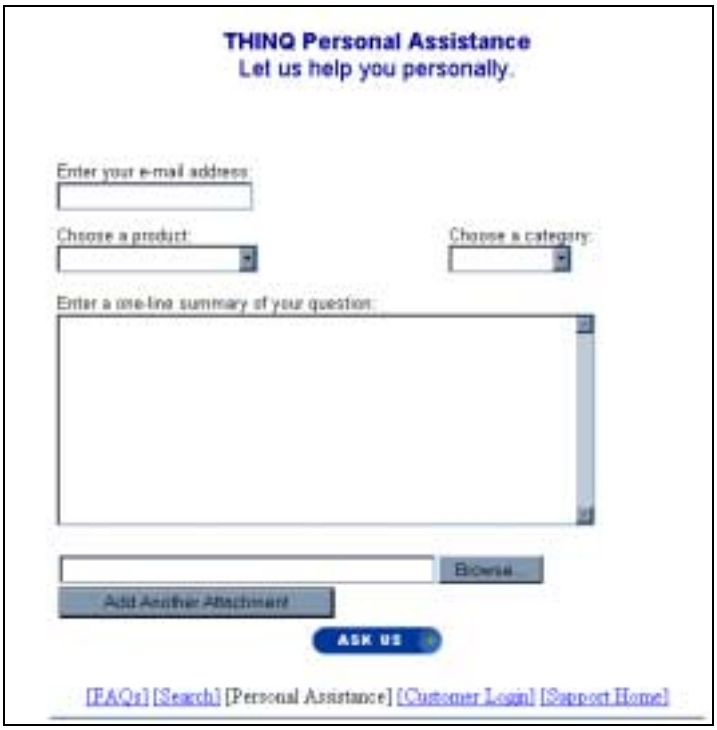


1. The **Frequently Answered Questions** menu allows you to search for a list of answers to the most common questions.

2. The accompanying pull-down menus allows you to narrow this search by Products (e.g., Online) or All Categories (e.g., Providers).

3. The **Search the Solution Database** option allows you to query for specific keywords. This search option provides 'radio buttons' that allow you to control how the system performs its search (e.g., if you select the *AND keywords* button, the system will return searches that contain ALL of your keywords). For more information on limiting your search criteria, click Search Tips?

4. If you are still unable to answer your question, try using the **Personal Assistance** feature. Simply click ASK US. This will open the following screen:



Enter your registered email address and select a product (optional) and category (optional) your question best fits. In the space provided, enter a short "one-line summary of your question" and/or attach any relevant documents related to your query using the Browse button and click ASK US again. A THINQ support staff member will get back to you within 24-28 hours.

5. All of the functionality listed above can be accessed by the hyper-links at the bottom of the screen. The provide an alternate means of accessing THINQ's help options.

Appendix

System Requirements

Learning Center's system requirements are minimal, providing users with universal access to utilize the system. These requirements include:

1. A web browser (Microsoft Internet Explorer Version 4.0+ or Netscape Communicator Version 4.0+).
2. Internet connectivity (28.8+ recommended).
3. You **must** have your web browser enabled for 'cookies' (A "cookie" is a small amount of information that you enter that a web site copies to your hard disk).

   Internet Explorer is automatically set up to accept cookies.

   To allow cookies in Netscape:
   - From the Edit menu, choose Preferences.
   - Click the Advanced category.
   - Click one of the radio buttons.
   - Important: In most cases, "Accept all cookies" is the best choice. The second button means that your computer will not send a cookie to a server that did not originate it.

System Architecture

THINQ's Learning Center uses Microsoft.NET (http://www.microsoft.com/net/) technologies:

1. Commerce Server 2000 (http://www.microsoft.com/commerceserver/default.htm)
2. SQL Server 2000 (http://www.microsoft.com/sql/)
3. BizTalk Server (http://www.microsoft.com/biztalk/default.htm)
4. Application Center 2000 (http://www.microsoft.com/applicationcenter/default.htm)
5. Windows Server 2000

Security

To protect its users, the Learning Center system has taken the following security measures:

- Relevant parts of the THINQ application (member, product, and order databases) are behind THINQ firewalls (CISCO PIX)
- Relevant parts of the THINQ application use SSL (Secure Socket Layer) technology
