✓ MAKE SURE YOU HAVE THE RIGHT BROWSER SETTINGS

Be sure you are using the correct browser and browser settings. The preferred browser for use with is Microsoft Internet Explorer® 7.0 (or later).

You also need to make sure you are using the correct settings:

1) Open your browser.
2) Go to **Tools▶Internet Options**.

Under Browser Settings:

3) Click Settings.

Under "Check for new versions of stored pages:

4) Make sure that **"Automatically"** is selected.
5) Click **OK** to close the Settings window.
6) Click **OK** again to close the Internet Options window.

✓ TROUBLESHOOT BASIC ISSUES

A few of the most common issues you may have with *Q+™* are listed below, along with a suggested solution.

NOTE

If the suggested solutions described below do not resolve an issue, or you don't see your issue listed, contact the Andesa Help Desk as noted in the Get Help section of this guide (below).

- **I'm getting sudden errors when performing basic tasks.**
  You may have too many windows open. Log out of Andesa, close any/all open windows on your desktop, then log into Andesa again.

- **My computer was just upgraded, and now, the screens in my Andesa applications don't like the same as they did (such as lines or words missing or squeezed together).**
  Be sure that you are using the correct browser (IE 7.0 or later). If you are upgrading to IE8 or later, click on the IE compatibility icon (see image at right) on the Andesa login page for instructions about setting up your new browser to be compatible with *Q+™*.

- **I've forgotten my password.**
  Click the **Forgot Password?** link on the reset your password. You will then receive two emails: one that confirms your login ID, the other will contain a temporary password. Use that password to log in. At that point, you will be required to change your password.

✓ GET HELP

- **Use Online Help**
  The online help system provides several ways to find specific information needed for using the system. It is the quickest way to find answers to your questions.

  Click at the top of the screen to display the topic that corresponds to the currently displayed *Q+™* screen (i.e., page level help). From there you can access any topic that exists within the online help.

- **Contact the Andesa Help Desk**
  For technical assistance, you can contact Andesa's Customer Help Desk Monday through Friday from 8:00 a.m. to 5:00 p.m. Eastern Time by phone or email: **941-926-0469E/help.desk@andesaservices.com** .

NOTE

To enable the Help Desk staff to better assist you, be sure to include a concise, but clear description of the immediate issue on the subject line. Then, in the body of the email, include as much detail about the issue or question, including a screen capture if possible.

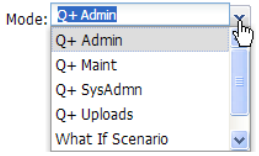
ADASTAR Q+™ Quick Reference Guide

A Product of ANDESA SERVICES

The following information provides the most basic of information to get you quickly set up and working in the ***Q+™ Admin*** mode. However, there is a detailed online help system built into *Q+™* that can be accessed from anywhere via the icon at the top of each screen

✓ USE THE MODES MENU

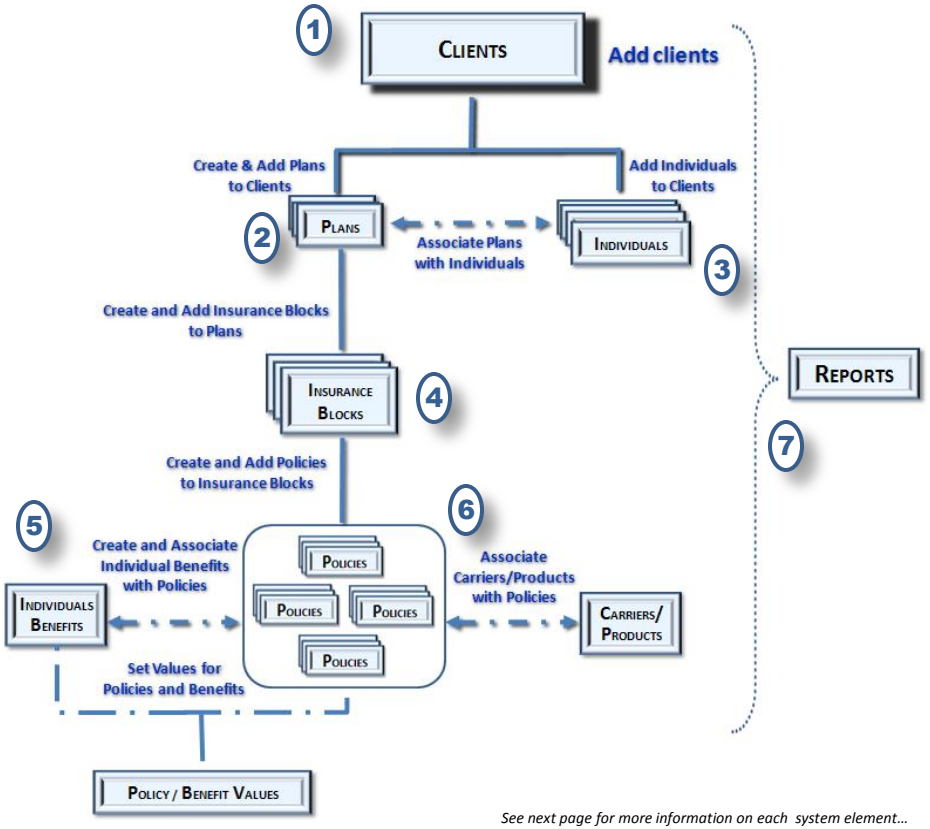
Q+™ offers several modes that allow you to see different areas of the system. Depending upon your security level, you may see all of these modes or only a few. Select **Q+ Admin** to perform tasks as shown below.



NOTE

If you are not sure of which modes you should see when you log in, contact your System Administrator.

✓ REVIEW THE WORKFLOW OF THE *Q+™*ADMIN SYSTEM



See next page for more information on each system element…

1) ADD A CLIENT

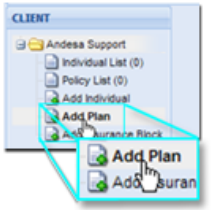
Use the **Add Client** option in the **Navigation tree** to display the ***Client Main*** screen. Enter information and save the new client.

- *Once you save a client, you can enter client information on the Client Main screen as well as the other Client tabs that appear.*

2) ADD A PLAN

Select the client for which you want to add a plan. Then, use the **Add Plan** option in the **Navigation tree** to display the ***Plan Main*** screen. Enter information and save the new plan.

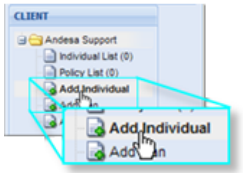
- *When a plan is added, the Plan Main screen appears so you can make the plan settings, including the plan design you want to specify: a) Death Benefit/Defined Retirement, b) Contributory Benefit, or c) an Insurance Reporting Only.*
- *Once a plan is saved, additional tabs appear that correspond to the specified Plan Design (i.e., the tabs that appear will differ depending upon which Plan Design is selected.*



3) ADD INDIVIDUALS

Use the **Add Individual** option in the **Navigation tree** to display the ***Individual Main*** screen. Enter information and save the new individual information.

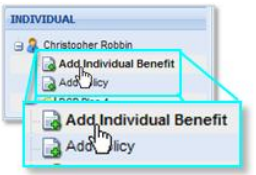
- *Once an individual's information is added and saved, the Overview tab appears. In addition, you can add benefits via the Individual Benefits Main screen or on the client's Individual Mass Entry screen.*



4) ASSIGN INDIVIDUAL BENEFITS

Select the individual for which you want to assign benefits. Then, use the **Add Individual Benefits** option in the **Navigation tree** to display the ***Individual Benefits Main*** screen. Enter information and save the assigned benefits.

- *Once benefits are saved, additional tabs appear for the individual corresponding to the plan with which the individual is associated.*



5) ADD AN INSURANCE BLOCK

Select the client for which you want to add an insurance block.
Then, use the **Add Insurance Block** option in the **Navigation tree** to display the ***Insurance Block*** screen. Enter information and save the new insurance block.

- *Once you add an insurance block, additional tabs will appear allowing you to add a variety of details used in calculations and reports.*

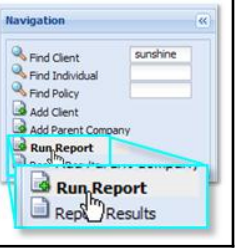
6) ADD POLICIES

Select the individual for which you want to add a policy. Then, use the **Add Policy** option in the **Navigation tree** to add a policy for the selected individual.

- *Once you add a policy, additional tabs will appear allowing you to add a variety of details used in calculations and reports.*

7) RUN REPORTS

1) Select **Run Reports** to display a list of available reports.
2) Click on the report you want to create/run to display the parameter fields.
3) Select/enter the appropriate information into each of the parameter fields.
4) Click **Run** to display the report results.



✓ USE OVERRIDE (CENSUS & #VALUE) FIELDS

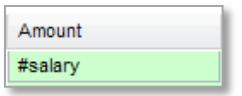
Override fields always appear in green and allow you to "customize "benefits for a particular client, individual, or plan.

1) Use one of the override values as described below to create a corresponding column in the associated mass entry table (e.g., Policy Mass Entry, Benefits Mass Entry) or the Individual Benefits screen.

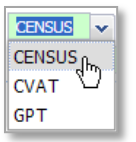
2) Go to the screen with the new column, then enter the override information for each individual.

Override Values:

"#value" : Used in any override text field (i.e., pound sign/hash mark followed by a specific value such as the word salary, bonus, or amount) .



CENSUS: This is an option in a drop-down override screen.



✓ USE MASS ENTRY TABLES

When using mass entry tables, you can add information in any of three ways :
A) Cut and paste multiple lines of information from an Excel® spreadsheet.
B) Enter information directly into the spreadsheet that is the mass entry table.
C) Add individuals one at a time via the Navigation tree (see **Add Individuals** on previous page).

NOTE
Some mass entry tables can only be updated using the ***Bulk Update*** *option (e.g. Client Compensation, 101j Values for Policies, etc.).*
